### **Artificial Insemination (AI) Packages**

There are two options available for Artificial Insemination - chilled semen or frozen semen. Chilled semen is generally more popular; and is a slightly cheaper package, whereas AI with frozen semen involves more scans and is not as straight forward, therefore the cost is greater.

Our packages are as follows:

#### **PAY AS YOU GO (Chilled or Frozen Semen)**

- All procedures are paid for as the cycle progresses.

#### **CHILLED SEMEN PACKAGE = £843.40 + VAT (payment for package required upfront)**

#### **FROZEN SEMEN PACKAGE = £1260 + VAT (payment for package required upfront)**

##### **Included in the Frozen/Chilled AI Packages:**

Cost = £843.40 plus VAT which includes:

- All ultrasound scans up to 30 days of pregnancy.
- Endometrial swab, smears and lab fees.
- Pre and post breeding treatments including drugs.
- Insemination and microscopic examination of semen.
- Caslicks repair after covering.
- Twin reduction.
- Blood samples for progesterone, lab fee not included.
- Up to 3 inseminations if required.

##### **Not included in the Frozen/Chilled AI packages:**

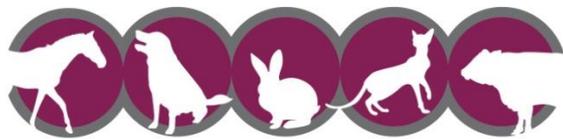

- Sampling and lab fees for CEM, EVA and EIA.
- Treatment for metritis.
- Regumate, PRIDS or Receptal.
- Visit fees when less than 4 horses are attended.
- Boarding/Livery fees at either Barrettstown Clinic or Radnage House Stud.
- Sedation.
- Any non-gynaecological or foal treatments.
- Maiden mares 13 years or more and other mares 16 years or more.
- Mares that have not had a live foal in the last 2 years, other than maidens.

#### **On average it takes 3 cycles to get any mare in foal (UK statistics)**
